Projects

Super Meal

FEB 2023

React.js

Node.js

Express.js

MongoDB

- Designed and developed a full-stack restaurant website using MERN stack.
- Created a responsive, interactive user interface using React components and hooks.
- Developed RESTful APIs with Express.js to handle server-side functionality and integrate with MongoDB database.
- Deployed the website on a cloud platform (Render).

Portfolio Website

JAN 2023

HTML

CSS

Bootstrap

React.js

- Designed and developed a personal portfolio website using React.js to showcase my skills & projects.
- Utilized CSS framework Bootstrap for a professional look and feel.
- Used Git for version control and to keep track of changes to the codebase.
- Deployed the website to a hosting platform (Netlify) for public accessibility.
